

APPLICATION AND WAIVER/RELEASE OF LIABILITY FOR PARTICIPATION AT ALLIED  
FORCES/SKAA CREWSDON DRIVE FIELD\*

\*Waiver for play on Allied Forces Play Days\*

As a prospective participant in the sport of Airsoft, it is extremely important that you have an understanding of the risks of personal injury and/or death that are associated with the sport. The following is intended to inform you of the general nature of those risks before your participation begins. The following is not intended to be an exhaustive discussion of those risks. Accordingly, should you have any questions pertaining to the nature and extent of those risks you should question the management of this field. Only after you have satisfied yourself as to the nature and extent of the risks involved as a participant in Airsoft should you sign this document. If we (Allied Forces Airsoft and/or the Southern Kentucky Airsoft Association) do not have a waiver on file for any participant who is on the field playing, then that person or persons does NOT have permission to be on the property for any reason and shall be deemed to be trespassing upon the property and Law Enforcement may be called to handle the situation. Even if there is no waiver on file for an individual, the body of the waiver contained herein shall be deemed the governing body for said person in regards to personal or physical injury either to the person himself or property. Trespassing charges may be added on top of this action as well.

1. The sport of Airsoft is an inherently dangerous activity. The game involves the use of high powered guns (air rifles) that fire plastic pellets at high velocities. Without adequate protection these pellets could break or penetrate the skin on impact. Should a pellet strike a person in the eyes, ears, nose or any vital area of the body that is not adequately protected, temporary or permanent injury or, in extreme circumstances, death may occur.

\*1a. Allied Forces uses the Allied Forces/SKAA field for their own private play dates. These play dates are in no way endorsed by any member of the Allied Forces team, nor the owner of the land, except for allowing them and their game participants to use the land and structures to play. Allied Forces uses much different feet per second (fps) and bb weight limit rules than that normally encountered on the Allied Forces field and officially sanctioned Allied Forces events. There is the possibility of significant danger to a person's body and head area if struck by a high velocity, higher weight bb like those used on Allied Forces private play dates, especially if safety gear is not worn at the time of impact. By signing this Waiver/Release the undersigned (and, if applicable, his or her guardian(s)) acknowledges that he/she has read the foregoing disclosures of the additional risks and, further, agrees that he/she assumes all such risks and will hold the owners, operators, participants, and all of their agents and employees completely free and harmless from any and all damages from physical injuries and/or death which may result from the undersigned's participation whether outside or inside any of the fields facilities.\*

2. Participants play the game on rough and hazardous terrain. I/we take absolutely no responsibility for the safety of the field. If you play, you are assuming all risks involved and understand that the field is provided in "as is" condition. The risk of injury OR gross negligence on the part of the owner or other participant exists and there remains the risk that a participant could be injured as a result of the hazardous nature of the terrain, the structures, or the game itself.

3. The sport of Airsoft involves rigorous and strenuous physical activity on the part of the participant. Accordingly, a person should not participate in the sport if he or she is not in good physical condition, or has any physical or mental illness or handicap which could be worsened by such participation or make the participant more vulnerable to physical injury or death. In some cases, players may be exposed to plants or elements that could cause serious injury as a result of an allergic reaction. Participant should consult with his/her physician before engaging in this sport.

4. It shall be the responsibility of each participant to obey all rules and utilize all safety equipment at all times. Safety equipment is designed to minimize the risk of injury and/or death, but its proper use does not guarantee that such injury will not occur. This field does not employ the active use of referees or individuals whose duty it is to maintain an active, vigilant watch during play. **There is no stated adult supervision on the field at any time.** At no time while a participant is on the field is there any stated person other than the participant whose job it is to make sure that all safety rules and regulations are followed. This is the responsibility of the individual playing and absolutely no implications otherwise are being made contrary to that option.

By signing this waiver, you and your guardians are stating that you fully understand that the participant and ONLY THE PARTICIPANT is responsible for their safety while on this property. By signing this Waiver/Release the undersigned (and, if applicable, his or her guardian(s)) acknowledges that he/she has read the foregoing disclosures of the risks and, further, agrees that he/she assumes all such risks and will hold the owners, operators, participants, sponsors and all of their agents and employees completely free and harmless from any and all damages from physical injuries and/or death which may result from the undersigned's participation whether outside or inside any of the fields, facilities or geographical boundaries. Also, by signing this waiver the participant and guardians listed agree to the same above conditions should any damage arise to their physical or personal property. Furthermore, by signing this waiver, you are stating that you are of sound mind and body and FULLY understand the document which you are signing. If parents or legal guardians are signing, they too, state that they are of sound mind and body and are fully aware of the details of this document and the risks involved with a child playing this sport. They too, are also bound by any and all statements made within this document. Parents or legal guardians are not required to remain on site while their children are playing as long as the child is aged 14 years or older, but if they choose to leave, they knowingly give up the right of adult supervision of children on the premises. There is NO SPECIFIED ADULT SUPERVISION ON THE FIELD AT ANY TIME. This means that even though adults may be present during play, they are NOT there in any official monitoring capacity and cannot be held accountable in such a capacity.
